SUMMARY

Final-year Bachelor of Computer Science (Software Engineering) (Hons.) student currently completing the final month of industrial training. Hands-on experience in web development, software engineering, and AI through academic projects and industry exposure. Skilled in Python, Laravel, PHP, Firebase, SQL, HTML, CSS, and Git, with knowledge of SDLC and Agile practices. Seeking an entry-level Software Engineer role to apply strong problem-solving skills and contribute to reliable, user-focused software solutions.

EDUCATION

Universiti Malaysia Pahang Al-Sultan Abdullah (UMPASA) — Pekan, Pahang **October 2022 - Present**
Bachelor of Computer Science (Software Engineering) (Hons.), CGPA: 3.21

Universiti Teknologi MARA (UiTM) — Arau, Perlis **June 2019 - March 2022**
Diploma in Applied Science, CGPA: 3.28, MUET: Band 4

EXPERIENCE

SL Software Solutions Sdn. Bhd. | Web Designer (Internship) **March 2026 - August 2026**

- Developed 50+ responsive web pages for the SL Software corporate website, featuring Odoo ERP applications, business services, and industry solutions.
- Improved page structure, navigation, responsiveness, and content organisation to create a clearer user experience.
- Built custom page layouts using HTML and CSS when standard WordPress editing access was limited.
- Created and maintained Odoo user guides and Knowledge Base articles, including tutorial videos and updated technical instructions.

PROJECTS

Email Classification Using AI | Final Year Project | 2025

- Conducted a research project investigating the application of supervised learning models and Natural Language Processing (NLP) for automated email classification.
- Processed a large corpus of 500,000 email records, utilizing Python, TF-IDF feature extraction, and Google Colab for data preparation, model training, and analysis.
- Evaluated model efficacy using key metrics, presenting a comparative analysis of algorithms and demonstrating strong analytical skills in data interpretation.

Tuition Management System (BelajarWithME) | 2025

- Developed the Enrollment, Payment, and Content Access module using Laravel and Firebase.
- Built secure workflows for enrollment, payment verification, transaction history, invoice generation, and course access.
- Implemented role-based access control to protect user data and restrict system functions.
- Collaborated in an Agile development team using Git for version control, testing, and code integration.
- Conducted functional testing on the core enrollment, payment, and content-access workflows and resolved the issues identified during testing.

Fakulti Komputeran Car Parking Management System (FKPark) | 2025

- Enhanced the Traffic Summon module of a web-based parking management system.
- Developed an automated PHP email notification feature to provide real-time summon updates.
- Implemented an audit trail to record status changes, user actions, timestamps, and notifications.
- Improved system transparency, traceability, and user communication.
- Used PHP, MySQL, Git, and Visual Studio Code to develop and test system enhancements.

SKILLS

Frontend Technologies : HTML5, CSS3, JavaScript, Bootstrap
Backend Technologies : PHP, Laravel
Databases : MySQL, Firebase
Tools : VS Code, Git & GitHub, Looker Studio, Google Colab, Odoo, Wordpress
Languages : Malay (Native), English (Professional)
Soft skills : Problem Solving, Adaptibility, Analytical Thinking, Self Motivation, Collaboration

CERTIFICATIONS

- PECB Cybersecurity Foundation (Certificate Holder) | Jun 2026**
- Successfully earned the professional certification by passing the PECB Cybersecurity Foundation examination.
- EF SET English Certificate (CEFR C2 Proficient) | May 2024**
- Achieved C2 Proficient in both Reading and Listening, demonstrating advanced English communication skills.
- Cisco Networking Academy – CCNA: Introduction to Networks | Aug 2023**
- Credential earned through Cisco Networking Academy; gained hands-on experience with IP addressing, switching, routing, and network configuration using Packet Tracer.

EXTRACURRICULAR ACTIVITIES

- Food & Refreshments Committee | Team Building “DAMAI TOGETHER 2025”** (May 2025)
- Coordinated food logistics, ensuring timely distribution to participants, compliance with hygiene standards, and smooth event operations.
- 3K (Safety, Health & Cleanliness) Committee | Expo Convocation 19** (October 2024)
- Managed safety protocols, crowd flow, and cleanliness standards to ensure a safe, organized, and professional event environment.

ACHIEVEMENT

- Silver Award | FIM International Innovation Exhibition (FIMiEx)** (November 2025)
- **SmartMail AI:** Awarded for innovation in developing an automated email classification using Machine Learning and Natural Language Processing (NLP).

REFEREES

1. **Dr. Ameerah Muhsinah Binti Jamil**
Senior Lecturer
Faculty of Computing
Universiti Malaysia Pahang Al-Sultan Abdullah
26600 Pekan, Pahang
Email: ameerahmuhsinah@umpsa.edu.my
2. **Ts. Dr. Ziti Fariha Binti Mohd Apandi**
Senior Lecturer
Faculty of Computing
Universiti Malaysia Pahang Al-Sultan Abdullah
